If line A or B is greater than 100, use the following formula:

Subtract 5 from line A or B. Multiply this number by \$1.50. Add \$25.00 to this to get your total assessment.

$$\underline{\hspace{2cm}} - 5 = \underline{\hspace{2cm}} \times \$1.50 = \underline{\hspace{2cm}} + \$25.00 = \underline{\hspace{2cm}}$$

Line A or B

Growers who have both field acreage and greenhouse area:

Use table above to determine the assessment due for both field acreage (line A) and greenhouse area (line B) separately. Use formula below.

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}} - \$25.00 = \underline{\hspace{2cm}}$$

GENERAL INFORMATION

The Pennsylvania Vegetable Marketing and Research Program was established in 1988 by a grower referendum under the Agricultural Commodities Marketing Act of 1968. Every five years a grower referendum must approve the continuation of the Program. It is controlled by a board consisting of twelve growers appointed by the Secretary of Agriculture, one representative of the collecting sales agents and the Secretary of Agriculture. The Program's sole purpose is to serve the vegetable growers of Pennsylvania by promoting Pennsylvania-grown vegetables and funding practical vegetable production research.

All persons who grow vegetables for sale on one or more acres of land (OR in 1,000 sq. ft. or more of greenhouse area) are required by law to pay an annual assessment to the Program and file a Production Verification Statement. The basic assessment is \$25 per grower. An additional assessment of \$1.50 is due on each acre above 5 acres (or on each 1,000 sq. ft. of greenhouse vegetables above 5,000 sq. ft.) The table above includes both the basic and additional assessment. Payments are due no later than October 31 of the current year.

Vegetables include all crops commonly termed vegetables including but not limited to: asparagus, beans (snap, dry and lima), beets, cabbage, cauliflower, broccoli, Brussels sprouts, collards, kale, mustard greens, kohlrabi, carrots, celery, corn (sweet, pop and ornamental), cucumbers, eggplant, garlic, horseradish, leeks, lettuce, muskmelons, watermelon, onions, parsley, parsnips, peas, peppers, pumpkins and squash (edible and decorative), gourds, radishes, rutabagas, spinach, sweet potatoes, tomatoes, and turnips. **WHITE POTATOES ARE NOT INCLUDED BECAUSE THERE IS A SEPARATE POTATO RESEARCH PROGRAM. MUSHROOMS AND SMALL FRUITS (STRAWBERRIES, BLUEBERRIES, RASPBERRIES, AND GRAPES) ARE NOT INCLUDED EITHER.** Greenhouse vegetables are those crops grown to maturity in the greenhouse, like tomatoes, cucumbers, peppers and lettuce. **GREENHOUSE VEGETABLES DO NOT INCLUDE VEGETABLE TRANSPLANTS OR HIGH TUNNEL VEGETABLES – high tunnel area should be counted as field production acreage.**

Certain sales agents, namely produce auctions, packinghouses, cooperatives and processors, are required by law to collect the assessment from growers unless the grower has already paid the assessment directly to the Program.
