### HOW TO USE KALE

- Kale cooks down dramatically so be sure to buy plenty.
- Store unwashed in an airtight container in the coldest part of the refrigerator for up to 3 to 4 days.
- To perk up limp leaves, trim the base of the stems and soak in lukewarm water.
- Thoroughly wash leaves and trim off stems and tough midribs.
- Blanching for 1 or 2 minutes in boiling water reduces bitterness and softens thick greens. Drain immediately and then run under cold water. Instead of blanching, kale can also be microwaved in a covered dish for 4 to 7 minutes.
- Blanched kale can be sautéed in a small amount of oil or stock and served like spinach or other greens.
- Kale can also simmered, covered, in a seasoned broth for 10 minutes or more or simply steamed for several minutes until wilted.
- Chopped, cooked kale can be mixed with grains such as rice or barley or added to soups, stews, beans or pasta sauces.
- Blend a few young chopped leaves without the stems into fruit smoothies.

- **How to Use Information Cards** – 3” x 5” cards on less well-known crops in tablets of 50 cards for easy display with the produce – cards are available for the following crops: Beets, Eggplant, Kale, Leeks, Spaghetti Squash, Summer Squash, Swiss Chard and Winter Squash. (\$1.50 value – tablets of 50 sheets each)

- **Vegetable Recipe Cards** - sixteen different vegetable recipes with full color pictures on attractive 3” x 5” cards, (\$15 value - 16 packs of 50 each);

- **Recipe Card Display Rack** - unfinished wood with slots for sixteen different recipes (\$17.50 value, each).
